Introduction

First aid can save lives and prevent minor injuries becoming major ones. Under health and safety legislation employers have to ensure that there are adequate and appropriate equipment and facilities for providing first aid in the workplace.

It is for schools to develop their own policies and procedures, based on an assessment of their specific need.

Policy Statement

The Lioncare School will undertake to ensure compliance with the relevant legislation with regard to the provision of first aid for all employees and extend the arrangements as far as is reasonably practicable to children and others who may also be affected by our activities.

Responsibility for first aid at The Lioncare School is held by the Head Teacher. Delegated responsibility is given to the School Administrator who is the Appointed

Person in regards to this policy.

All first aid provision is arranged and managed with due regard to Guidance on First Aid for Schools and the assorted school policies that explain how the adults at the Lioncare School relate to, communicate with, and safely touch the children in our care.

All staff have a statutory obligation to follow and co-operate with the requirements of this policy.

Aims & Objectives

Our first aid policy requirements will be achieved by:

- Carrying out a First Aid Needs Assessment to determine the first aid provision requirements for our premises and activities. This assessment will be ongoing and dynamic. See Google/Risk Management and Assessments/First Aid.
- Reviewing the First Aid Needs Assessment periodically or following any significant changes that may affect first aid provision
- Ensuring that there are a sufficient number of trained first aiders on duty and available for the numbers and risks on the premises in accordance with the First Aid Needs Assessment.
- Ensuring suitable provision for First Aid is in place for offsite trips and activities.
- Ensuring that there are suitable and sufficient facilities and equipment available to administer first aid in accordance with the First Aid Needs Assessment.
- Ensuring the above provisions are clear and shared with all who may require them

First Aid Training

The Head Teacher will ensure that appropriate numbers of trained and qualified people are available to meet the needs of the group in and out of school. At The Lioncare School, all staff receive training in First Aid as part of their initial basic training. Training is provided by a recognised provider.

Those who have been trained are responsible for administering first aid, in accordance with their training, to those that become injured or fall ill whilst at work or on the premises.

There may also be other duties and responsibilities which are identified and delegated to the School Administrator as Appointed Person (eg. first aid kit inspections).

Appointed Persons

At The Lioncare School the School Administrator is the Appointed Person to take charge of first aid arrangements including looking after equipment/facilities and calling the emergency services

First Aid Provision

During the Covid 19 pandemic we will endeavor to balance the risk of covid 19 against the risk present in each first aid need. This may mean that only 1 adult attends where there may have been 2 or accessing whilst socially distanced.

During the Covid 19 pandemic all those with parental responsibility have agreed to keep at home any child displaying Covid 19 symptoms and inform school immediately.

Main symptoms are: A high temperature, a new, continuous cough, a loss or change to your sense of smell or taste, Most people with coronavirus have at least 1 of these symptoms.

Our First Aid Needs Assessment has identified the following requirements for first aid equipment

- There need to be three areas where equipment is located
- These will be situated in the medical room, the main office and the utility room.
- There will be one travel first aid kit in the school minibus
- This travel first aid kit is located in the school mini bus at all times

- Further 2 travel first aid kits are located in the activities rucksacks to be taken to all offsite activities for groups
- During the Covid 19 pandemic staff have been asked to inform Gaynor May or their line manager should they feel they are a vulnerable person that should not give first aid, to ensure staffing levels are sufficient to fulfil our first aid requirements.

It is the responsibility of the Appointed Person to check the contents of all first aid kits every half term and record findings and address any requirements.

The medical area is designated as the first aid room for treatment, sickness and the administering of first aid. The first aid room will have the following facilities:

- Medical bench, pillow, blanket, running water, first aid kits. (There is a telephone located in the Admin office if a mobile phone is not available).
- All staff should take precautions to avoid infection and must follow basic hygiene procedures. Staff have access to single use disposable gloves and hand washing facilities, and should take care when dealing with blood or other body fluids and disposing of dressings or equipment. Yellow clinical waste bags are provided for this purpose.

Emergency Arrangements

Upon being summoned in the event of an accident, the First Aider or Appointed Person (whichever arrives first) is to take charge of the first aid administration/emergency treatment commensurate with their training. Following their assessment of the injured person, they are to administer appropriate first aid and make a balanced judgement as to whether there is a requirement to call an ambulance.

The first aider/appointed person is to always ensure an ambulance is called on the following occasions:

- In the event of a serious injury
- In the event of any significant head injury
- In the event of a period of unconsciousness
- Whenever the first aider is unsure of the severity of the injuries
- Whenever the first aider is unsure of the correct treatment

- Whenever a child has a severe allergic reaction requiring the administration of an epipen

When there is the possibility of a fracture or where this is suspected, a judgement call should be made, dependent on the severity of the incident, the distress level of the child and the availability of the parent to come to school quickly.

In the event of an accident involving a child, it is our policy to always notify carers / parents / those with parental responsibility of their child's accident, immediately if it:

- is considered to be a serious (or more than minor) injury
- requires attendance at hospital

In the event that carers/ parents cannot be contacted and a message has been left, our policy will be to continue to attempt to make contact with the carers/ parents every hour. In the interim, we will ensure that the qualified first aider, appointed person or another member of staff remains with the child until the carers/ parents can be contacted and arrive (as required). The placing local authority will be notified as soon as possible in the event of hospitalisation as they will usually need to give permission for treatment and often have parental responsibility.

In the event that the child requires hospital treatment and the carers/ parents cannot be contacted prior to attendance, the qualified first aider/appointed person/another member of staff will accompany the child to hospital and remain with them until the carers/ parents can be contacted and arrive at the hospital.

Records

All accidents requiring first aid treatment are to be recorded with (at least) the following information:

- Name of injured person
- Name of the qualified first aider/appointed person
- Date of the accident

- Type of accident (eg. bump on head etc)
- Treatment provided and action taken

When the person receiving first aid is a young person the form will be sent to parents/carers and the placing authorities social care team if the child is on a care order or under a Child in Need/Child Protection Plan. .

If it is an adult the form will be stored at the Lioncare School and reviewed by a member of the school management team. If it is felt appropriate to do so the administration team at Lioncare House will be consulted regarding the potential need to report under RIDDOR (Reporting of Injuries, Diseases and Dangerous Occurrences Regulations) duties. <http://www.hse.gov.uk/riddor/reportable-incidents.htm>

The following accidents will be reported to HSE if they injure either the school's employees during an activity connected with work, or self-employed people while working on the premises:

- accidents resulting in death or major injury (including as a result of physical violence);
- accidents which prevent the injured person from doing their normal work for more than three days (including acts of physical violence).

HSE will be notified regarding employees when the person involved is killed or is taken from the site of the accident to hospital **and** the accident arises out of or in connection with work.

These accidents will be notified to HSE without delay (e.g. by telephone) and followed up in writing within ten days on Form 2508.

<https://www.hse.gov.uk/forms/incident/>

We will decide whether an accident "arises out of or in connection with work" following HSE views that this includes:

- any school activity, both on or off the premises;
- the way a school activity has been organised and managed (e.g. the supervision of an activity);
- the use of equipment, machinery or substances in school;

- the design or condition of the premises
